

SWIM PROGRAM

Campers ages 3 through 2nd grade participate in daily instructional swim, as well as free swim in our depth-appropriate pools. All campers receive instruction from our American Red Cross certified instructors who follow the "Learn to Swim" program while building skills and helping the children develop confidence in the water. Parents will be updated with their camper's progress at the end of their child's camp experience.

All campers 3rd grade and older will have a period of free swim each day in our gorgeous main pool. In order to ensure everyone's safety, these campers will be evaluated to make sure they are able to safely swim in the deep end of the pool.

If you are interested in additional supplemental swim instruction, the JCC offers private and semi-private lessons after camp. For more information, please contact Sherri Rothstein, Camp Aquatics Director at 201.567.8963.
