How do I choose the right instrument for my child?

To choose an instrument, start by considering your child’s interests, personality, and physical capacity. Before committing to a specific instrument, expose them to different types of instruments, listen to music in every way possible, and attend concerts. Age and size are also important factors, as some instruments require more physical strength, lung capacity, dexterity, coordination or hand size than others.

When should my child start?

The chart below is a guide to when a child can begin to learn an instrument.

Instrument	Age to Start
Violin, Cello, Flute	3+
Guitar, Piano, Percussion (including drum set)	4+
Harp, Recorder, Viola	5+
Ukulele, Voice (Choir)	6+
Clarinet	7+
Oboe, Saxophone, Trumpet, Double Bass, French Horn, Bassoon (depending on size of student)	8+
Baritone Horn, Trombone, Tuba, Euphonium	10+
Voice	11+

- 1) Join us at one of our student recitals and hear Thurnauer students of different ages perform. Student recitals are free and require no tickets.
